

Everonn Skill Development Limited (ESDL) is a subsidiary of Everonn Education Limited a leading education company in India. ESDL and National Skill Development Corporation (NSDC) have formed International Skills School (ISS) through a joint initiative to create a pan-India skill development infrastructure to skill 15 million students by 2022.

To achieve this stupendous task ESDL has planned to launch 12 MRC's across the country.

ESDL has planned to involve 271 Training Partners across the country to join us in this game changing journey. NSDC while funding the project is also supporting the endeavour by connecting us to the Industry for placement & Banks for funding the candidates' fees.

ESDL launched its first Master Resource Center at Everonn House – Chennai, inaugurated by Mr. S Ramadurai – Advisor to Prime Minister on Skill Development on 25th July 2011.

Mr. M V Subbiah - Chairman NSDC, Mr. Santosh K Misra, IAS – Director Employment and training, and Managing Director Overseas Manpower Corporation Limited - Tamil Nadu, Mr. M B Santhanam - Chairman, Task Force on Skills, Employability and Affirmative Action, CII (SR) Managing Director, Saint Gobain Glass India Limited were also part of the occasion.

Master Resource Center:

MRC concept is designed to meet the huge requirement of trainers to train the vast humanity of unskilled personnel. MRC will have master trainers in each sector, who will train the trainers who will eventually be deployed to various Everonn Multi Skill Development Centre's across the country to train the students as well as other Institutions, NGO's, Academic Institutions etc. who want to enter the skill development and vocational training.

What is Unique about Everonn MRC?

It is the country's first Multi-Skill Trainers Facility for 9 sectors, Research & Development facility for skill development and also the single largest content development facility in the country for basic training to advance diploma.

The center will also be an incubation center for new ideas and methods of training in skills and will bring in the best practice from world over in simulation training.

MRC will establish itself as single point resource content for skill development.

National and International Tie-ups

International Skill Schools (ISS) will be the brand that would be used for all fee based training facility across the country. Various national and international collaborations have been initiated to develop world's best content development, training methodology, training infrastructure which will build the aspirations of youths who undergo training for employable skills.

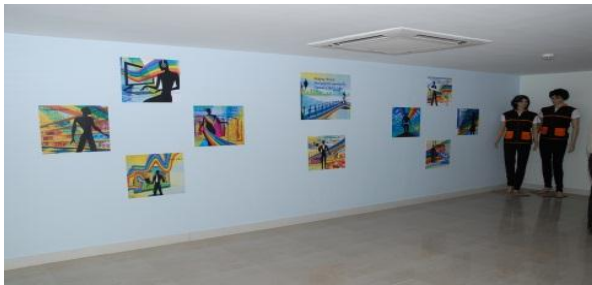

The following national and international tie ups have been construed to facilitate structuring industry need course curriculum and content.
